

Welcome home to AMXhome – a complete residential sales solution program. Take advantage of Sales Demo Touch Panel and Flash files, pre-printed Sales Solution sheets, a proposal template and a web-based configuration tool.

#### **SIMPLIFIED SOLUTIONS**

We started with the most popular features/functionality homeowners expect in an automation system including distributed audio, lights, HVAC, audio/video, internet, pool/spa, and distributed video. Then we created four suggested solution sets including Distributed Audio, Media Rooms, Essential Home Control, and Whole Home Control.

#### **SIMPLIFIED MANAGEMENT OF CUSTOMER EXPECTATIONS**

Sometimes the best way to explain the possibilities is by giving your customer the ability to see, touch and operate a working touch panel that replicates a real solution. AMXhome includes 8400i and 5200i TPD files and a Flash file for any PC.

Having professional materials for your customer says a lot about how professional you are. Each colorful, easy to read, pre-designed Sales Solution sheet is available in a print-ready PDF file and includes space to add your logo and contact information.

#### **STEPS TO BECOMING AN AMXHOME DEALER**

1. AMXhome is available today to all AMX dealers with at least one certified AMX Designer and Installer on staff.
2. The AMXhome dealer license fee is \$1,500USD for a one-year license. This license gives dealers the ability to sell as many AMXhome systems as they choose and also includes the AMXhome Dealer CD, full of support tools like the AMXhome Sales brochures and touch panel demonstration files.
3. For more details on AMXhome and to purchase a dealer license, AMX dealers may contact their AMX Sales Representative at [amxhome@amx.com](mailto:amxhome@amx.com) or AMX Global Customer Service at 800.222.0193, option 3.

# Proven Solutions

## MARKETING MATERIALS

Choose from 2 TPD Files for the MVP 8400 or the MVP 5200 that provide an exact replica of a real AMXhome solution.

The same functionality can be demonstrated on any PC via an interactive Flash file providing an exact replica of a real AMXhome solution.

A proposal template and for colorful, easy to read, pre-designed Sales Solution sheets are available in print-ready PDF files with a designated area for dealer name and contact information.
